

School Forms Office Policy

Asthma and allergy related forms may be completed for patients who have been seen in our practice within the last 12 months. All other patients will be required to schedule an appointment and be seen prior to the forms being completed.

School forms are good for one school year only (September-June). Please visit your child's school or daycare website to get their required forms.

Forms may take up to 10 days to be completed with the exception of forms received Mid-August through Mid-September. Forms received during those months may take longer to complete because of the high volume.

All forms must have the following patient information completed prior to Princeton Allergy and Asthma completing: Patient's Legal Name, Date of Birth, Height, Weight, and Asthma/Allergy Medications. (The backs of all forms must also have Patient's Legal Name & Date of Birth).

Forms without this information will not be completed, for your child's safety. Please mail forms to: (regardless of the office you visit) Princeton Allergy and Asthma Associates, P.A 24 Vreeland Drive Skillman, NJ 08558 Or Fax Number: 609-924-1468
