What to bring to first appointment

- **You must have with you any related allergy testing, lab results, CT Scan or X-ray results, biopsy results, list of current medications, including “over the counter”, dosage and time of day you take it and any other medical records necessary for the doctor to properly assess and treat the patient.**
- **If appointment is for food allergy, bring food log with ingredient information and corresponding symptoms.**
- Several medications interfere with allergy skin testing. If you would like to be skin tested, please follow the recommended time intervals listed on the medication avoidance list attached for allergy medications that would need to be stopped for accuracy. **Please do not stop any chronic medications.** The nurse will ask you what medications you are taking, **so please have a complete list when you come to the office including over-the-counter** medicatons. If you have severe allergy or asthma symptoms you may not be tested for safety reasons. It will be done at the discretion of your physician.
- Insurance Card and Copay
- If a referral is required, please contact your Primary Care Physician. Some insurances prohibit us from seeing the patient without a referral.
- Photo ID of patient (if patient is under 18, bring parent photo ID)
- Complete the check in process that you will receive in the confirmation text 1 week prior to your appointment. If unable to do this then the new patient written paperwork must be printed from our website, completed, and brought to the appointment.
- If appointment is with Dr. Caucino, Dr. Skolnick, Dr. Sikorski, Dr. Shah or Mrs. Hodges, please complete the medical questionnaire on your patient portal. (For portal setup: see 2nd link in email; Link for questionnaire is found directly below your appointment information on your portal.)
